Objects:

To work in an organization which provides me with ample opportunities to enhance my skills and knowledge. I'm capable to understand the seriousness of situations and be able to manage. I'm doing my best at every small to small opportunity that is under my responsibility.

Summary

Passionate UI/UX design enthusiastic | 3rd-Year Bsc IT:

I'm a curious and creative individual pursuing a BSc in Information Technology with a minor degree in UI/UX Design. Designing user-friendly and impactful experiences is my passion, and I love turning ideas into visually appealing solutions. I've completed a 15-day internship at Younity.in, where I gained valuable professional experience. Skilled in programming languages like Python, Java, Advanced Java, PHP, HTML, CSS, JSON, SQL, C#, Linux (Shell Script), asp.net framework (C#) and R Console, I combine technical expertise with creativity to solve problems and build meaningful projects.

Beyond technology, I'm passionate about arts and creativity, including fiction writing, painting, sketching, crafting, drama/acting, and calligraphy. These hobbies fuel my imagination and inspire my designs.

Experience:

- Fresher/15-day internship at Younity.in
- 1 month internship as Web Developer at Prodigy InfoTech & Brainwave Matrix Solutions
